Why did you decide to become a physicist?
What do you enjoy about science?
How important are imagination and creativity?
Who are your biggest influences?
Which Nobel Laureates inspire you?
How important is collaboration?
How important is government support?
Can breakthroughs in physics still be done independently?
Do you enjoy being a mentor?

What's your favourite piece of advice for students?

How did you become interested in movies?

Is popular culture an important way to educate audiences?

What's your favourite film?

Has working in films helped your own research?

How do you like to spend your free time?

Where do you do your best thinking?

What projects are you working on now?

What do you find harder – poetry or physics?
