Full-color design makes the book visually stimulating.

Study Guide for Today's Medical Assistant - E-Book

Corresponding to the chapters in the main Bonewit text, Study Guide for Today's Medical Assistant, Clinical & Administrative Procedures, 3rd Edition features a variety of practical exercises, activities, checklists, review questions, and more to help users master important medical assisting knowledge and skills. This comprehensive study guide has been thoroughly updated to reflect the 2015 CAAHEP competencies and key

areas of practice, such as: electronic medical records, HIPAA regulations, advanced directives, emergency preparedness, ICD-10 coding, billing documentation, medical office technology, medical asepsis, vital signs, pediatric immunizations and injections, colonoscopy procedures, IV therapy, and CLIA waived tests. Consistent, meticulous study guide coverage aligns seamlessly with the main Bonewit text and all other Bonewit solution learning products. Evaluation of Competency checklists assess readers' performance versus stated objectives and performance standards. Critical thinking activities encourage readers to think outside the box and imagine what they would do in real-life situations. Laboratory assignments at the beginning of each chapter give readers a guide on each chapter's procedures, including guidelines on how many practices are required, which study guide pages correlate to the procedure, and which procedures are also in the procedural videos. Key term assessment tests readers' knowledge of the terms presented in the main text. Evaluation of Learning questions assess readers' progress and are an excellent tool to prepare for the certification exam. Practice for Competency checklists help readers practice each of their clinical skills. Pharmacology math exercises give readers a chance to practice their basic math skills in a way that relates to their future job. Chapter assignment tables at the beginning of each chapter guide readers through the textbook and study guide chapters, and provides a great tracking device for recording progress of textbook reading assignments and study guide activity assignments. NEW! Updated material aligned to most current CAAHEP and ABHES competencies ensures success and employability for today's medical assistants. NEW! Material from the chapter on nutrition is also incorporated into the accompanying study guide material. NEW! Updated content on emergency preparedness and medical records ensure readers are up-to-date on these key topics. NEW! Application to SimChart for the Medical Office where appropriate allows readers to prepare for the real world by working on Elsevier's own educational EHR. NEW! Expanded A&P key terminology sections give readers ample A&P key term practice.

The procedural videos on the Evolve companion site enable users to view the procedures in action. 8th grade reading level makes material approachable and easy to understand for all types of readers. Full-color design makes the book visually stimulating. NEW! Chapter on nutrition underscores the CAAHEP curriculum's emphasis on nutrition by covering all of the latest nutritional information that pertains to today's medical assistants. NEW! Updated chapters on emergency preparedness and medical records ensure readers are up to date on the latest

advances and rulings in these topical areas. NEW! Updated content aligned to the most recent CAAHEP and ABHES competencies ensures readers have the latest information needed to obtain employment and long-term success on the job. NEW! Expanded resources on Evolve now include videos, video evaluations, and practice examinations for the CMA, RMA, CCMA, and CMAA. NEW! Tie-in with SimChart for the Medical Office links important text content to opportunities for hands on practice working on Elsevier's educational EHR. NEW! Updated photographs and illustrations give readers a closer look at today's most pertinent information and skills for the medical assistant. NEW! Expanded A&P key terminology sections give readers ample terminology reinforcement, including proper pronunciations.

Study Guide for Today's Medical Assistant - E-Book

Get unrivaled practice mastering all the concepts and skills necessary for success in today's fast-paced medical office with the Study Guide for Today's Medical Assistant. Filled with assignment sheets, pre- and post-tests, vocabulary practice, short-answer review questions, critical thinking activities, competency practice, and evaluations for each chapter, this comprehensive study guide is the perfect hands-on resource to jump-start your medical assisting expertise. The 4th Edition features enhanced coverage of healthcare law, certification, electronic health records, motivational interviewing, office management, and more, as well as additional procedures to address behavior-based competencies and more EHR practice. Expanded application to SimChart for the Medical Office provides more realistic practice with EHRs. Consistent and meticulous coverage throughout all elements of the text and its learning package provide reliable content and unparalleled accuracy on the responsibilities of the modern medical assistant. Chapter pre-tests and post-tests enable you to easily gauge how much content you have mastered. Critical thinking activities encourage you to develop the judgment needed for real-life medical office situations. Laboratory assignments at the beginning of each chapter offer a guide on each chapter's procedures. Practice for Competency checklists for each procedure help you practice each of your clinical skills. Perforated pages offer on-the-go review and enable easy assignment submission. NEW! New content on healthcare trends and laws, certification for Medical Assistants, electronic health records, motivational interviewing, office management, and more ensures that you have the latest information needed to obtain employment and long-term success on the job. NEW! Competency evaluation for new procedures addresses affective (behavior-based) MAERB competencies to provide example-driven teaching and learning tools.

Study Guide for Today's Medical Assistant

Chapter assignment tables at the beginning of chapters guide you through textbook and study guide assignments, and make it easy to track your progress. Laboratory assignment tables list the procedures in each chapter, including study guide page number references, and indicate the procedures shown on the DVDs. A pretest and posttest in each chapter measure your understanding with 10 true/false questions. Key term assessments include exercises to help in reviewing and mastering new vocabulary. "Evaluation of Learning" questions let you assess your understanding, evaluate progress, and prepare for the certification examination. Critical thinking activities let you apply your knowledge to real-life situations. "Practice for Competency" sections offer extra practice on clinical skills presented in the book. "Evaluation of Competency" checklists evaluate your performance versus stated objectives and updated CAAHEP performance standards. Updated content includes exercises for topics such as electronic medical records, advanced directives, HIPAA, emergency preparedness, ICD-10 coding, documentation, medical office technology, medical asepsis, vital signs, pediatrics, colonoscopy, IV therapy, and CLIA waived tests. New activities provide practice for the "Today's Medical Assistant" textbook's newest and most up-to-date content. New "Emergency Protective Practices for the Medical Office" chapter includes procedures, critical thinking questions, and other activities to help you understand emergency preparedness. New "Wheelchair Transfer Procedure" and "Evaluation of Competency" checklist includes a step-by-step guide to this important procedure. New video evaluation worksheets on the Evolve companion website reinforce the procedures demonstrated on the textbook DVDs. New practicum and externship activities on Evolve provide practice with real-world scenarios.

Study Guide for Today's Medical Assistant

Launch your career in medical assisting with Today's Medical Assistant, Clinical & Administrative Procedures, 3rd Edition! Bringing together the clinical know-how of Kathy Bonewit-West, the administrative expertise of Sue Hunt, and the anatomy and physiology knowledge of Edith Applegate, this hands-on guide uses easy-to-follow language and detailed visuals to walk readers through all of the medical knowledge, procedures, and skills needed for success in today's fast-paced medical office. Not only does this new edition incorporate the latest standards and competencies throughout all of its content and resources, but it also includes an incredibly wide assortment of engaging learning tools and activities that help readers fully understand and demonstrate those competencies.

Study Guide for Clinical Procedures for Medical Assistants

Learn how to think critically and perform competently in the clinical setting! Correlating to chapters in Clinical Procedures for Medical Assistants, 11th Edition, this study guide provides additional activities, review questions, and exercises designed to prepare you to work in a modern medical office. Content aligns to the new 2022 medical assisting educational competencies and provides procedure checklists and video evaluations to help you track your mastery of clinical skills. This essential companion provides the practice you need to prepare for a successful career in the fast-paced world of medical assisting! Critical thinking activities with realistic situations help students analyze and apply what they've learned with games, role-playing situations, crossword puzzles, and independent study questions. Self-assessment opportunities allow students to perform quick comprehension checks, including pre-tests, post-tests, and key-term assessments.

Today's Medical Assistant - Text and Study Guide Package

Learn the procedures and skills you need to succeed as a medical assistant! Clinical Procedures for Medical Assistants, 9th Edition provides clear, step-by-step instructions for common office procedures such as taking vital signs, collecting and processing lab specimens, preparing patients for examinations, and assisting with office surgeries. Written by expert educator Kathy Bonewit-West, this full-color edition covers the latest competencies and topics in today's medical assisting practice including emergency preparedness and the updated fecal occult blood testing procedure. The Evolve companion website includes videos of 84 procedures described in the book, preparing you to become a competent clinical medical assistant. Over 120 procedures are presented in a clear, illustrated, step-by-step format, with online videos showing 84 of the procedures in action. Chapter outlines and learning objectives prepare you for the skills and concepts you will be learning. What Would You Do? What Would You Not Do? case studies challenge you to apply your knowledge to realistic medical office situations - with a practitioner's response at the end of chapters. Putting It All Into Practice and Memories from Practicum boxes feature real medical assistants sharing personal, on-the-job experiences. Key Terms and Terminology Review help you master medical assisting terminology. Charting examples help you understand the process for charting your own procedures. Patient Teaching boxes prepare you for effective communication, with detailed instructions on how to answer questions and how to explain medical concepts and procedures. Student resources on the Evolve companion website offer a fun way to practice your medical assisting knowledge with animations, games such as Quiz Show and Road to Recovery, drag-and-drop exercises, Apply Your Knowledge exercises, matching exercises, and other interactive activities (blood pressure readings, determining height and weight, drawing up medication), as well as all video procedures and practicum activities. UPDATED fecal occult blood testing procedure includes new video demonstrating this procedure. UPDATED examples of medical assistants using an EHR are demonstrated in the video procedures, showing the use of electronic charting. Updated venipuncture

photos show how to perform venipuncture. UPDATED content also includes topics such as the medical record, including HIPAA, electronic medical records, and advanced directives; emergency preparedness; the use of computer technology; medical asepsis; AIDS & hepatitis; latex glove allergies & non-latex gloves; vital signs including temporal artery thermometer, pulse oximetry, and the significance of pulse pressure; pediatrics including immunization information and IM injection theory; the colonoscopy; IV therapy; and the latest CLIA waived tests. All 84 procedure videos are now available on the Evolve companion website for convenient viewing

Accompanys: 9781416044321 .

Today's Medical Assistant - Text and Virtual Medical Office Package

Gain realistic experience in a physician's office without leaving the classroom! By using Elsevier's Virtual Medical Office learning system - an Elsevier textbook, a study guide, and interactive software - students develop critical thinking and decision-making skills they'll need in their externships and on the job. In Virtual Medical Office, students experience patient care from check-in through check-out, exploring all national curriculum competencies. It shows how to manage different patients - and why. Each study guide lesson directs the student through the textbook and software and presents exercises focused on one or two medical assisting competencies at a time based on what they experience. Realistic software simulations of handling a difficult patient, setting up the exam room, and many more, bridge the gap between the classroom and the real world. 15 unique cases promote understanding of how the competencies established by ABHES (Accrediting Bureau of Health Education Schools) and CAAHEP (Commission on Accreditation of Allied Health Education Programs) come into play in the workplace. More than two hours of video clips highlight the communication and professionalism competencies of patient care. Realistic information resources are shown, such as medical records for each case, an office policy manual, a fee schedule, a daysheet, and more. Performance summaries allow students to compare their decisions for each case to those of an expert and evaluate any differences between the two. A study guide: Complements textbook content through lessons that correlate reading assignments with patients in the virtual practice. Focuses on one or two competencies in each lesson, to create brief, manageable learning experiences. Demonstrates how all CAAHEP and ABHES medical assisting competencies come into play in the workplace. Promotes active learning as students collect information from a variety of sources to make patient care decisions. Encourages critical thinking as students discuss and critique the performance of the medical assistants in the videos. Augments knowledge of HIPPA by directing students to compare the policy manual, the contents of each case's medical record, and what actually happens in the videos. Makes lessons available online, allowing students to complete their assignments and submit them electronically to their instructor.

Today's Medical Assistant - Text, Study Guide, and MediSoft Version 16 Demo CD Package

Binder-Ready Edition: This loose-leaf copy of the full text is a convenient, accessible, and customizable alternative to the bound book. With this binder-ready edition, students can personalize the text to match their
